

CAP 20-25 Governance

CAP 20-25 governance is organized on two levels: a **decision-making and strategic level** that brings together the partners of the CAP 20-25 consortium, and an **operational level** which brings together the leaders of the strategic focusses and cross-disciplinary programs under the direction of Pierre Schiano, responsible for the CAP 20-25 project, in the presence of **the management team**.
